

## *Vacancy for a Model Technician*

Phoenix is a large Dental Laboratory based on the Sowton Industrial Estate in Exeter. We manufacture dental prosthesis (dentures, crowns, orthodontic appliances etc) for Dentists throughout the U.K. and Eire.

We are a full service laboratory, which means we provide work in all the major disciplines within dentistry.

Quality and excellent service are essential in our profession so it's important we ensure our staff is properly trained and qualified.

We are currently looking for a Model Technician to help us meet the demands of an expanding business.

Phoenix is based in a purpose built modern laboratory with excellent career opportunities.

### **Model Technician**

#### **KEY DUTIES / TASKS:**

Key tasks include the proficient manufacture of models, articulating and house keeping. The job involves the use of small precision tools and technical instruments/equipment. Dental Technology is a mixture of art and science, aesthetically pleasing and technically accurate.
