

## *Newsletter: January 2008*

Let me start by wishing everyone a very  
Happy and Successful New Year.

I hope you have had a good time over the holiday and are returning to  
work refreshed and rested.

As I mentioned in our December Newsletter our building work is well under way. Although this is quite exciting as the outcome will be worth all the inconvenience, it still does not stop the turmoil from causing some grief and a difficult working environment.

The staff as always, make the best of the situation and pull out all the stops to give the best service we can in the circumstances, my thanks to all of them.

I hope by the second week of January we will be back to some sort of normality as the new floor should be installed and we can get back to using the ground floor space again without walls and ceilings tumbling down around us.

After this very messy stage will come the improvements of the new laboratory facilities and clinical areas throughout 2008 (money permitting); so I hope it will be all worthwhile.

2008 is also the time for DCP statutory registration with the GDC and all the technical staff and our new Clinical Dental Technicians will be doing so now in plenty of time for the deadline of July 30th.

We recognise that it is only through your valued support and custom we are able to make all these changes possible and we certainly look forward to working with you in 2008.
