

August 15, 2008

To all at Phoenix Castings,

I am retiring from practice completely next week but I could not go without a message of thanks to you all for your help over the years.

Phoenix are the best lab I have ever worked with. I have never experienced such consistently high quality lab work from every department. It makes such a difference to be able to rely on things being right first time!

Special thanks to H for being such a talented ceramist, rescuing my clumsy efforts time after time and even managing to put a smile on my wife's face!

Once again thanks for everything.

Best wishes,

David Mollett
